Wabash Preference Shown

The great Wabash railroad system most emphatically placed the stamp of approval on the work of the Chillicothe Business College and in a way designated the big Chillicothe Institution as its special training school when it ran its dispatcher wire thru the Telegraph Dept. and offered to supply regular railroad blanks for the course in station work. In this manner, the Wabash is co-operating with the school authorities in the training of the young men and women who go to Chillicothe but at the same time, this well-known railroad is pointing the way of the student to entering its employ when thru with their training. Only last week, two young men, Virgil Hershey and C. A. Bradley, accepted positions at Moberly and Brunswick at initial salaries of \$93 and \$87.50 respectively, while scarcely a week passes that one or more do not join the big army of operators, agents, clerks, stenographers and accountants, all along the Wabash.
